

## Units of Sound: Getting Started at Home

Your child is already using Units of Sound and knows how to work on the activities. To continue at home, you will need to make sure the technology is in place and then the student can work independently.

### Before you start – check the technology

- Units of Sound relies on good internet access
- Please note your child needs to hear content and record their voice to use Units of Sound, so you need a headset and mic (recommended) or a functioning audio/mic on the computer and to 'allow' the mic.
- Units of Sound should be used on PC, Mac, laptop or Chromebook. NB It can work on an ipad, but we cannot guarantee it will – it depends on the ipad model and your internet latency 'lag time'. We recommend using it on a computer/laptop for a better all-round experience.
- Units of Sound works via Chrome or Edge

### Logging in to Units of Sound

Your child's login is (tutor to provide login):

ID	
Password	

To access Units of Sound go to: [online.unitsofsound.com](https://online.unitsofsound.com)

### How much a week? (tutor to circle)

Minutes	15	20	25	30	35
Times per week	1	2	3	4	

### Get Help

If you get stuck or need to ask questions please get in touch with the Units of Sound tutor at the school or you can contact the Units of Sound team via the Contact Us page on the website: [www.nisai.com/unitsofsound](https://www.nisai.com/unitsofsound)
